### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brick Power on 4-15-05.

The application has been amended as follows:  
Claim 1 line 3, delete --or securing to-- therefrom.

This Office Action is in response to Applicant's Amendment filed 1-25-05, which has been entered and considered. Claims 1-6, 8-23, and 36-53 are currently pending.

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance for claims 1-6, 8-23, and 36-53: the prior art of record does not teach or disclose or make obvious a method of modifying a semiconductor die, comprising inter alia: forming on the active surface of a die at least one stabilizer comprising at least two superimposed, contiguous, mutually adhered layers comprising a dielectric or photopolymer or electrically nonconductive material ... and disposing said die active surface-down over a higher-level substrate. Grigg (6,740,962) discloses a similar method, except Grigg discloses said superimposing at least one stabilizer onto a tape rather than the die

active surface, and said stabilizers of Grigg are positioned outside the perimeter of the die so as not to be formed on the active surface. Since Grigg is the same assignee as instant application and qualifies only under a 102(e) priority date, Grigg cannot be combined with another reference under 35 USC 103(a).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
